PROFILE

MCA student with a strong foundation in full-stack web development (MERN), Java, and database technologies, and hands-on experience building end-to-end software projects. Skilled in problem-solving, data structures, and writing clean, maintainable code, with a keen interest in software development, tools/automation, and engineering infrastructure. Eager to contribute to real-world engineering projects as a Software Development Intern.

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL

Web Development: HTML, CSS, React.js, Node.js, Express.js, MongoDB, Bootstrap (MERN Stack)

Concepts & Tools: Data Structures, REST APIs, JWT Authentication, Git, Software Testing

EDUCATION

Master of Computer Applications (MCA) | Zeal College, Pune

2025 - Present

Bachelor of Science - Information Technology (B.Sc. IT) | University of Mumbai

WORK EXPERIENCE

Software Development Intern | Gadget Dash, Pune

July 2026 - Present

- Contributing to real-world software development projects, gaining hands-on industry experience in the full development lifecycle.
- Collaborating with the engineering team to build, test, and debug application features.

Assistant Manager | The Cake World, Panvel

May 2025 - Sept 2025

- Oversaw daily operations across a network of 13 retail stores.
- Supervised staff scheduling, training, and performance management.
- Managed inventory procurement and stock levels to minimise shortages.

PROJECTS

Smart Face Recognition Attendance System — Python, Streamlit, SQLite, OpenCV

- Built an AI-powered attendance management system using real-time facial recognition.
- Stored attendance records in an SQLite database with a Streamlit-based dashboard.

ZealConnect - Social Platform — MongoDB, Express.js, React.js, Node.js (MERN Stack), JavaScript

- Developed a full-featured social platform supporting chat, posts, project sharing, and groups.
- Implemented JWT-based authentication and real-time messaging using JavaScript across the stack.

StayNest - PG/Hostel Management System — Bootstrap 5, HTML, CSS, JavaScript

- Built a responsive Bootstrap 5-based PG management platform with Owner and Tenant dashboards.
- Implemented room & bed management, booking requests, rent tracking, and complaint management.
- Deployed the application using Netlify and Render for production hosting.

SoleStyle - Full-Stack E-Commerce Website — HTML, CSS, JavaScript, Bootstrap, Node.js, Express.js, MongoDB

- Developed a responsive full-stack footwear e-commerce website with product browsing, search, and filtering.
- Built features including product details, shopping cart, wishlist, user authentication, checkout, and order management.
- Deployed the application using Netlify and Render for production hosting.

ProductAI Studio - AI-Powered E-Commerce Content Platform — React.js, Node.js, Express.js, MongoDB, Google Gemini API, Axios, Vite

- Built an AI-powered content generation platform using Google Gemini to generate product descriptions and SEO keywords from product details.
- Implemented content generation, product history, CRUD operations, and clickable SEO keyword search, with MongoDB Atlas as the database.
- Deployed the application using Netlify and Render for production hosting.

CERTIFICATIONS

- Java Full Stack Developer Certification (In Progress)
- Java Programming Course - Symbiosis Bhavan Campus (Completed)
- Java Full Stack Development Course - IT Vedant (In Progress)

LANGUAGES

English, Hindi, Marathi
